

Dear Parents:

The Roswell Independent School District has implemented PowerSchool which is the student information system (SIS) for the district. PowerSchool allows parents to monitor student performance from any web connection. PowerSchool provides real-time access to your student's grades, attendance and assignments for Grades 3 - 12.

You can view the information for your student at any time from any computer with internet access.

Process for parent access:

The school where your child attends will be issuing the parent portal packet. You will need to supply the following information.

Student Name

Date of Birth

Grade

School

Name of Parent/Guardian requesting access

After the information has been verified you will be issued your parent portal packet. The packet contains your Confidential UserName (Access ID) and Password (Access Password) and information on how to access the website. Once you are in the website you will need to create an account.

Please keep your passwords confidential so only you can access the information.

Together we can make a difference!

Thank you for participating!
